Subject: Uranium Facility In NM - Subpart B Information

Good morning! There is a possibility of having a uranium mine (Subpart B) starting up in the Grants, NM area (Roca Honda). I'm sending this out to all, but I'm thinking Angelique and Richard may be the ones with the most knowledge.

I need help in the process of what we need to tell the company, will there be any public hearings, state involvement (NM does not have delegation), and anything else you can think of. Also, if you can share paperwork regarding Subpart A information, I really would appreciate it.

Thanks in advance and enjoy the upcoming LONG weekend!
